

# Accessories

	<p><b>Chainwheels</b> allow operation of overhead valves by means of a slight pull on the chain. Universal design allows chainwheel to be clamped to handwheel or pinned directly to valve stem.</p>		<p><b>Stem guides</b> are designed as wall brackets for installation in treatment plants and pump stations to provide support for valve extension stems. Ductile iron construction with bronze bushing.</p>
	<p><b>Floor boxes</b> are cast iron and designed for installation in concrete floors or slabs to provide support for extension stems. Overall length is 6 inches. Underside tapped to accept 2½ " NPT pipe nipples of any length for floors thicker than 6 inch.</p>		<p><b>Electric Motor Operators</b> are used to convert manually operated valve to automatic valves. The electric operator can be equipped with a variety of control options to meet customer applications.</p>
	<p><b>Indicating floor stands</b> are designed for installation in treatment plants and pump stations to allow operation of valves at lower elevation. Body of ductile iron. Position indicator is bronze.</p>		<p><b>Valve extension stems</b> are used to raise the elevation of both buried and "in-plant" valves having a 2" square operating nut.</p>
