T1-2 Tapping Machine & Accessories

3/4" – 2" Hot Tapping

* *Rated the best tapping machine in the industry.*

All adaptors are provided with test ports for pre-testing prior to tapping.

Adaptors are Iron Pipe Thread, Copper flare and compression adaptors available.

Machine expandable to perform 4" hot tapping.

The Model T1-2 is ideal for making pipeline connections on pressurized pipelines.

This tapping machine is designed with industrial and tapping companies in mind.

Light weight yet strong, versatile and long lasting.

*Allows easy control of travel for size on size connections

*Test ports on all adaptors for pre-test of welds and assemblies before tapping

*Great for tight quarters.

*No hand cranking required, uses 110V ridged drill to perform tapping operation.

*Taps steel, plastics, cast/ductile iron and concrete pipelines.

*Coupon retaining pilot bits give you the confidence of professional hot tapping.

*This 3/4" – 2" package is easily expandable to make 2 1/2", 3" and 4" taps.

*High temperature option is available.

*Machine is not restricted by travel. Optional long travel-travel boring bars are available.

*Backed by one of Americas largest and well know service companies, IFT.

*25 years of proven use

*Spare parts and problem shooting are easily obtained by our customers.

*Compatible with line stopping and meter installations

*The same machine as the T1-4 less: 2 1/2", 3" and 4" adaptors and (2) boring bars,
Accepts same adaptors, cutters, pilots and drive motor.

*T1-2 & T1-4 Parts are interchangeable.
